ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: FLEXIBLE CONTROL PANEL

(57) Abstract: The invention relates to a device for control and monitoring equipment comprising a control panel and at least one control member. The invention is achieved by providing the control member with a readily movable module which may be detachably located on the front surface of the control panel, and in that the module communicates in a wireless manner with a central unit, via which externally controlled units are influenced/controlled.
